“

The engine is the heart of an airplane but *the pilot is its soul.*

—
Sir Walter Raleigh

”

Dear Sir or Madam;

Welcome to IFTC; the number one destination for the pilots of the future. Here at IFTC we seek to provide the best training experience possible to our customers. Our customers aren't just names and numbers, they are the very souls of aviation. Therefore, they deserve the most prestigious training services available within a modern facility complying with international standards.

Over a decade in the industry, IFTC is increasingly committed to meeting the growing demand for aviation training by raising the most important asset of an airline, its pilot.

Sincerely,
The IFTC Team

ISTANBUL

Come and train in *The world's capital of culture.*

Formerly known as the home to the Roman Empire and Byzantium Empire, Istanbul is the only city that straddles two continents: Asia and Europe. Istanbul proudly announce its excellency in sustaining its status as an aviation hub while continuously improving its infrastructure with its new airport set to redraw the world aviation map, worthy of being titled "The world's capital of culture".

Istanbul: Home to *4 full flight simulators*

The two Level D A320 and two Level D B737NG flight simulator are **certified by EASA**. The simulators use satellite imagery with customized visual data bases. IFTC's expert technical team works around the clock to keep the simulators up to international standards.

A320 FTD, A320 FNPT II MCC & B737NG FPT

Istanbul:

Home to **1 A320 FTD, 1 A320 FNPT II MCC & 1 B737NG FPT**

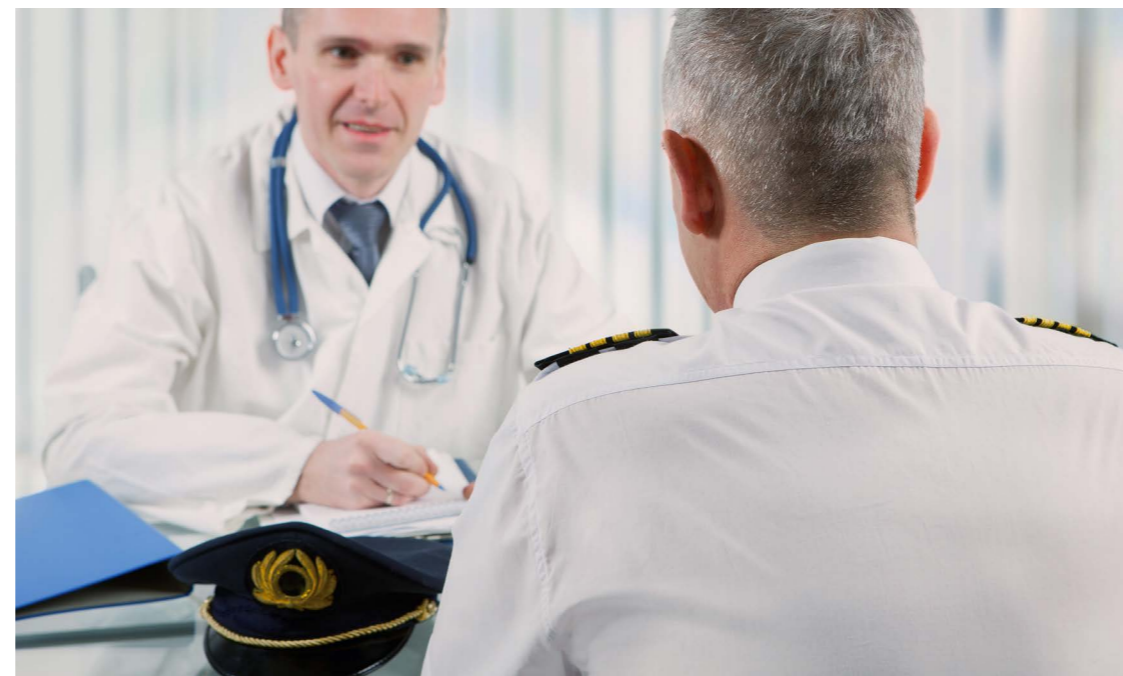

The Istanbul facility is equipped with 1 A320 FTD, 1 A320 FNPT II MCC & 1 B737NG **one touch panel based training device** known as FPT. Students are required to clock in several hours on the FPT's learning to operate all panels, controls, indicators and displays found in the flight deck before stepping foot into the flight simulators.

MCC- JOC trainings can be done on EASA approved A320 FTD which is basically a full flight simulator without the motion with its full flight deck replica and fully enclosed design.

The A320 FNPT II MCC device is not only EASA-approved for conducting MCC trainings, but it also significantly enhances our training programs by providing our students with advanced tool to ensure their success.

Istanbul: At your service *24/7, 365 days*

The Istanbul facility, conveniently located in the Istanbul Ihtisas Free Zone, houses **4 Level D full flight simulators**, all certified by EASA. In addition, the facility offers spacious classrooms adjustable to your requirements, two computer based training rooms designed to ensure the **excellency of your aircraft technical knowledge**, briefing rooms you can freely use to brief/debrief for and go over your simulator flights and 1 A320 FTD, 1 A320 FNPT II MCC and 1 FPT to familiarize you with the flight deck. To ensure your comfort, your accommodations and transportation can be arranged by IFTC's customer service at your convenience.

ISTANBUL FACILITY

- ✓ 4 Full Flight Simulators (A320 + B737NG)
- ✓ 1 A320 FTD, 1 A320 FNPT II MCC & 1 B737NG FPT
- ✓ EASA Medical for Pilots & Cabin Crew
- ✓ Computer-based training rooms
- ✓ Large classrooms
- ✓ Briefing rooms
- ✓ Close-by luxury hotels

ANTALYA

An aerial photograph of Antalya, Turkey, showing a long, sandy beach along the coast. The water is a vibrant blue, and the city buildings are visible in the background. In the distance, there are large, rugged mountains with snow-capped peaks under a clear blue sky. The beach is populated with people, umbrellas, and lounge chairs, indicating a popular resort area.

Come and train in
Turkey's Best Sea Resort

ANTALYA

Come and train in *Turkey's Best Sea Resort*

Located in Turkey's biggest sea-resort and one of its most historic cities, IFTC ANTALYA is mere miles away from the welcoming embrace of the Mediterranean sea. When they're not clocking time in flight simulators, pilots are free to enjoy the city's many beaches, sun tan, hiking tracks or visit captivating historic sites such as the Hidirlik Tower, Hadrian's Gate or the Yivliminare Mosque.

Antalya:
Train in the only *energy neutral center* in the world.

IFTC Antalya is equipped with self-supporting modules offering the required services for both type rating and recurrent trainings. It houses EASA certified Level D B737NG, A320 NEO-CEO Full Flight Simulators. *The facility powered by solar panels*, lit with LED-lights and heated, cooled with groundwater. The simulator uses satellite imagery and is *customizable according to your requirements*. IFTC Antalya is the first simulator center in the world to return power back to the grid in times of overcapacity and is *a model example for all training facilities*.

Antalya: At your service *24/7, 365 days*

IFTC Antalya also houses a **Cabin Evacuation & Emergency Trainer (CEET)** and a **Real Fire Fighting Trainer (RFFT)**. The CEET prepares your cabin crew for any normal, abnormal or emergency situations that may occur during take-off, flight and landing. The RFFT equips your cabin crew / pilots with the necessary skills to combat any fire and simulates real fire and smoke during the process. With diligent course programs, experienced instructors and the latest equipment, the facility is at your service 24/7, 365 days a year.
